Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

1. Introduction process
2. Ideas to elaborate
3. All ideas recommended

Before you collaborate

A list of considerations to bring with you to this session. Think about what you want to do in your meeting.

- Team getting: Make sure you're all on the same page at the start of the session.
- Not to get: This shows the session isn't for brainstorming in a general sense.
- Team feedback: Make sure you have the feedback loop open for all ideas and get the most out of the session.

Define your problem statement

What problem are you trying to solve? Frame your problem as a clear, tight statement. This will be the focus of your session.

1. Erase of soil y heavy rain
2. Floods & insufficient vegetation
3. Climate changing
4. Goodies, fertilizers, and manures

Step 1: Make a list of ideas
Step 2: Group ideas into categories
Step 3: Prioritize ideas

Brainstorm

Write down any ideas that come to mind that address your problem statement.
